**IMPORTANT INFORMATION FOR RELOCATING APPLICANTS**

Please read s. 466.006, Florida Statutes, prior to submitting your application. Applicants who complete the ADEX examination in a jurisdiction other than Florida must complete additional requirements. Following is an excerpt from s. 466.006, F.S.

s. 466.006(6)(a) - It is the finding of the Legislature that absent a threat to the health, safety, and welfare of the public, the relocation of applicants to practice dentistry within the geographic boundaries of this state, who are lawfully and currently practicing dentistry in another state or territory of the United States, the District of Columbia, or the
Commonwealth of Puerto Rico, based on their scores from the American Dental Licensing Examination administered in a state other than this state, is substantially related to achieving the important state interest of improving access to dental care for underserved citizens of this state and furthering the economic development goals of the state. Therefore, in order to maintain valid active licensure in this state, all applicants for licensure who are relocating to this state based on scores from the American Dental Licensing Examination administered in a state other than this state must actually engage in the full-time practice of dentistry inside the geographic boundaries of this state within 1 year of receiving such licensure in this state. The Legislature finds that, if such applicants do not actually engage in the full-time practice of dentistry within the geographic boundaries of this state within 1 year of receiving such a license in this state, access to dental care for the public will not significantly increase, patients’ continuity of care will not be attained, and the economic development goals of the state will not be significantly met.

(b)1. As used in this section, “full-time practice of dentistry within the geographic boundaries of this state within 1 year” is defined as a minimum of 1,200 hours in the initial year of licensure, which must include any combination of the following:
   a. Active clinical practice of dentistry providing direct patient care within the geographic boundaries of this state.
   b. Full-time practice as a faculty member employed by a dental or dental hygiene school approved by the board or accredited by the American Dental Association Commission on Dental Accreditation and located within the geographic boundaries of this state.
   c. Full-time practice as a student at a postgraduate dental education program approved by the board or accredited by the American Dental Association Commission on Dental Accreditation and located within the geographic boundaries of this state.
   2. The board shall develop rules to determine what type of proof of full-time practice of dentistry within the geographic boundaries of this state for 1 year is required in order to maintain active licensure and shall develop rules to recoup the cost to the board of verifying maintenance of such full-time practice under this section. Such proof must, at a minimum:
      a. Be admissible as evidence in an administrative proceeding;
      b. Be submitted in writing;
      c. Be submitted by the applicant under oath with penalties of perjury attached;
      d. Be further documented by an affidavit of someone unrelated to the applicant who is familiar with the applicant’s practice and testifies with particularity that the applicant has been engaged in full-time practice of dentistry within the geographic boundaries of this state within the last 365 days; and
      e. Include such additional proof as specifically found by the board to be both credible and admissible.
   3. An affidavit of only the applicant is not acceptable proof of full-time practice of dentistry within the geographic boundaries of this state within 1 year, unless it is further attested to by someone unrelated to the applicant who has personal knowledge of the applicant’s practice within the last 365 days. If the board deems it necessary to assess
credibility or accuracy, the board may require the applicant or the applicant’s witnesses to appear before the board and give oral testimony under oath.

(c) It is the further intent of the Legislature that a license issued pursuant to paragraph (a) shall expire in the event the board finds that it did not receive acceptable proof of full-time practice within the geographic boundaries of this state within 1 year after the initial issuance of the license. The board shall make reasonable attempts within 30 days prior to the expiration of such a license to notify the licensee in writing at his or her last known address of the need for proof of full-time practice in order to continue licensure. If the board has not received a satisfactory response from the licensee within the 30-day period, the licensee must be served with actual or constructive notice of the pending expiration of licensure and be given 20 days in which to submit proof required in order to continue licensure. If the 20-day period expires and the board finds it has not received acceptable proof of full-time practice within the geographic boundaries of this state within 1 year after the initial issuance of the license, then the board must issue an administrative order finding that the license has expired. Such an order may be appealed by the former licensee in accordance with the provisions of chapter 120. In the event of expiration, the licensee shall immediately cease and desist from practicing dentistry and shall immediately surrender to the board the wallet-size identification card and wall card. A person who uses or attempts to use a license issued pursuant to this section which has expired commits unlicensed practice of dentistry, a felony of the third degree pursuant to s. 466.026(1)(b), punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Applicants using ADEX scores completed after October 1, 2011 from a jurisdiction other than Florida that are older than 365 days must complete additional requirements as stated in s. 466.006(4)(b)3.
